

POHÁDKOVÉ KORUNKY

Proměň každou běžnou aktivitu ve školce či doma v královské dobrodružství! Tento PDF soubor obsahuje sadu pohádkových korunek v různých barvách, které stačí vytisknout, vystříhnout, případně zalaminovat a jsou připravené k okamžitému použití.

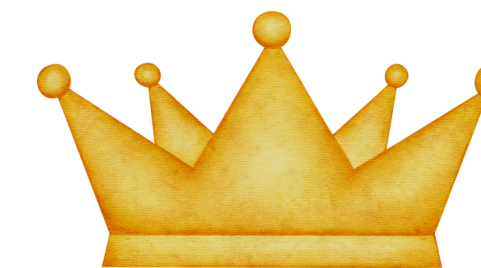

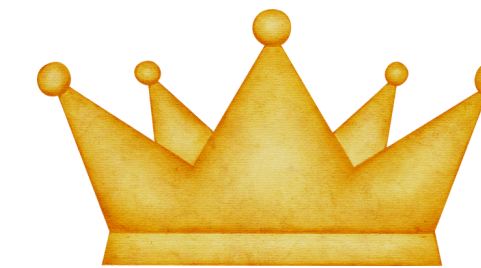

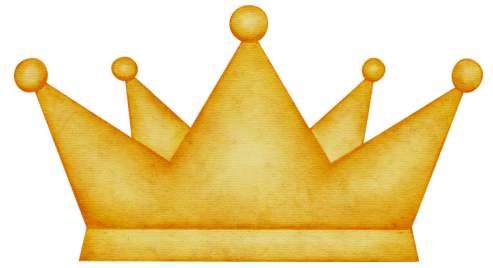

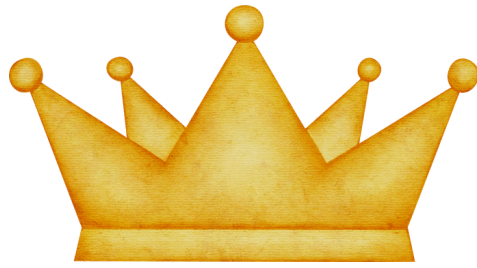

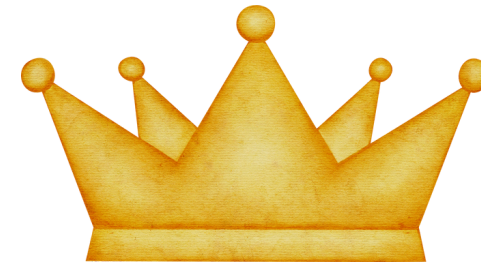

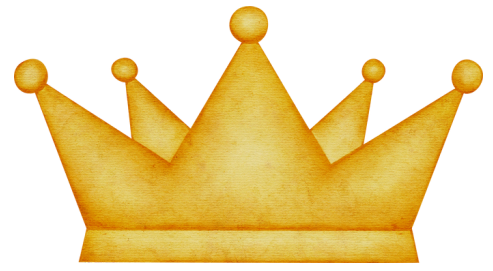

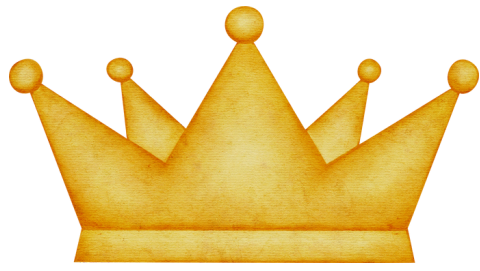

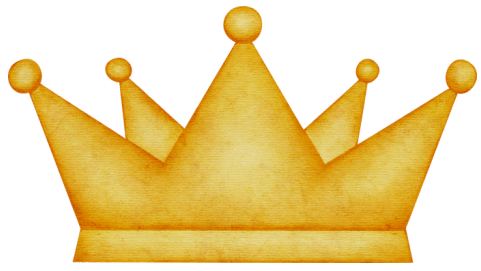

Korunky lze využít při tematických dnech, dramatizaci pohádek, výtvarné výchově, narozeninových oslavách, nebo jako motivační odměnu pro děti.

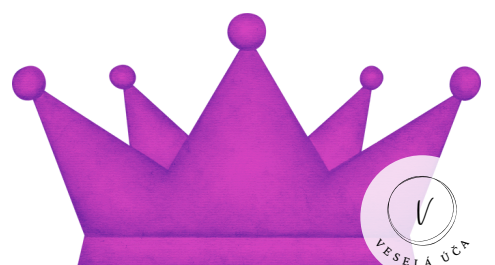

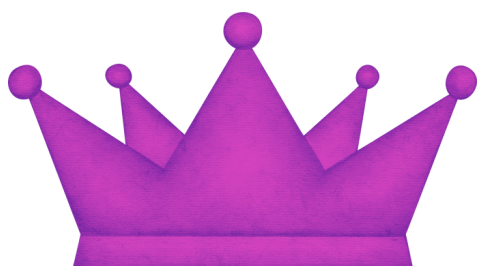

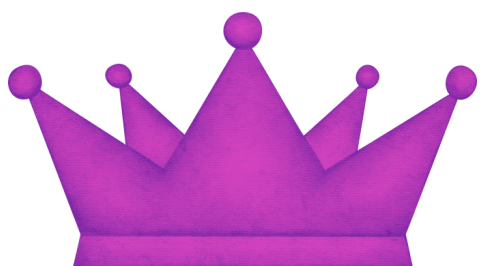

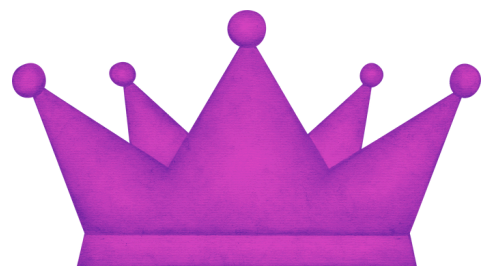

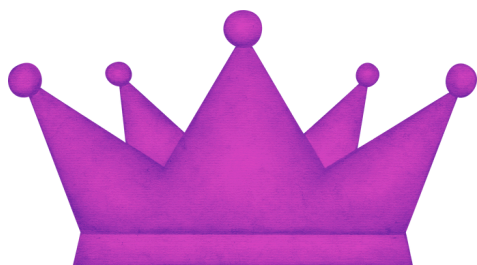

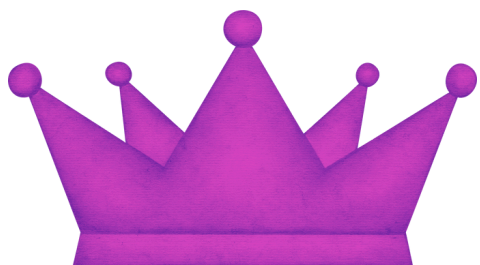

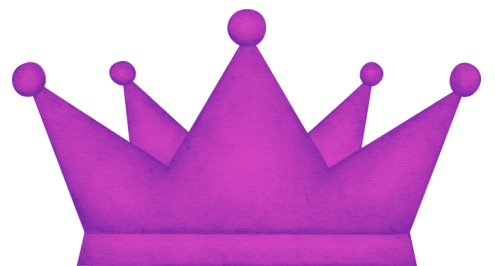

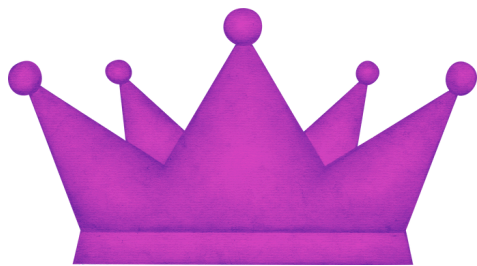

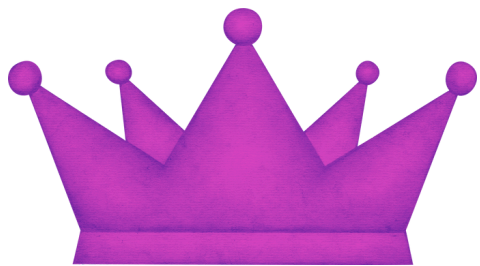

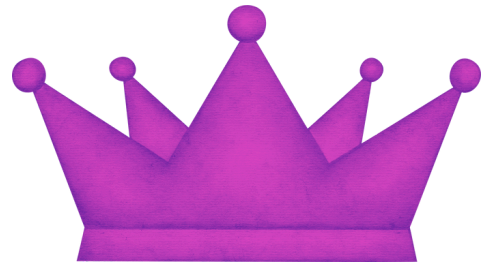

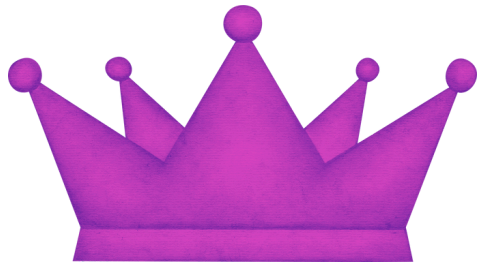

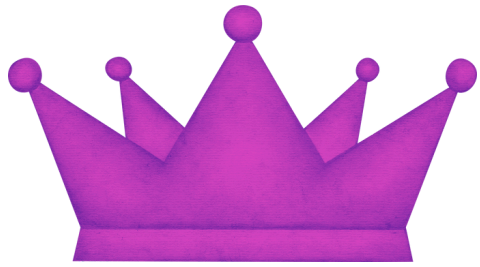

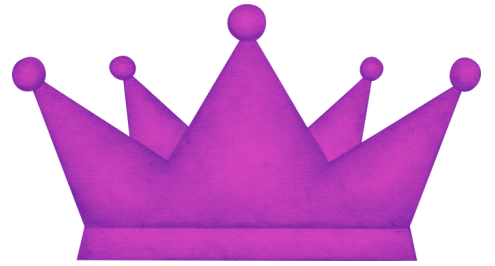

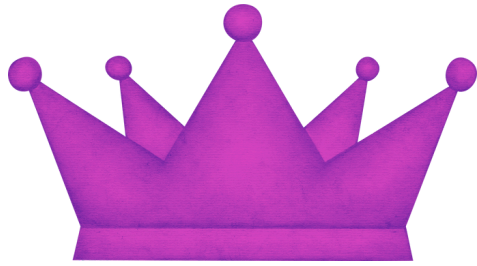

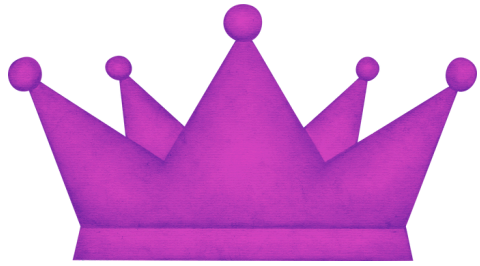

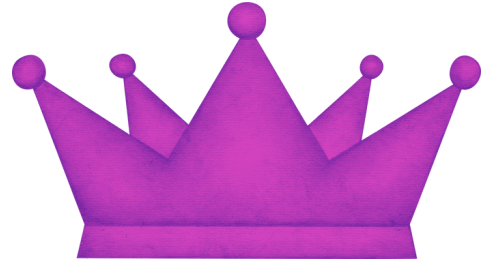

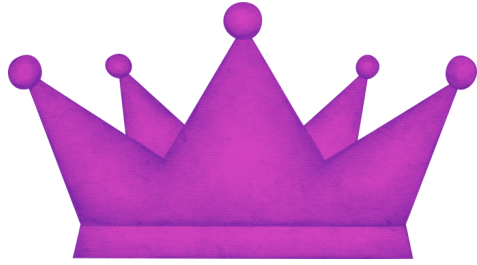

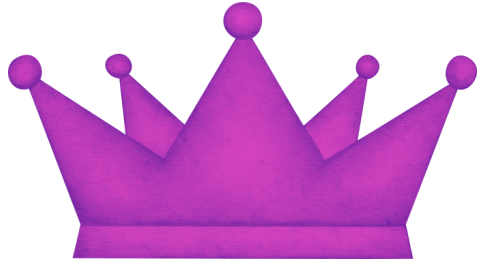

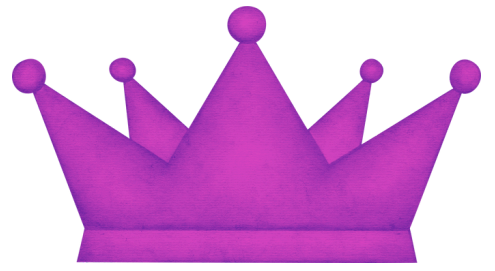

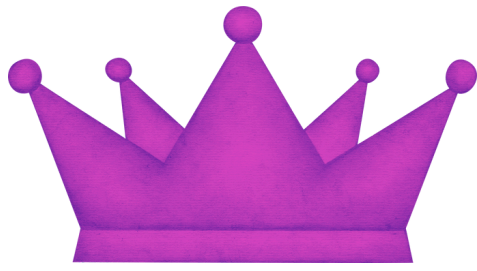

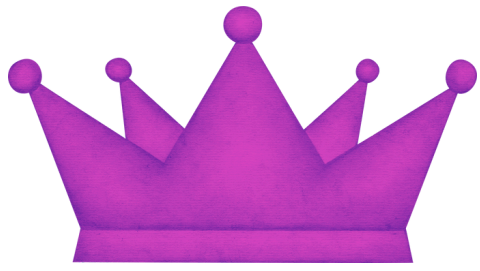

Soubor skvěle doplňuje PLA korunky z pohádkové řady Veselá uča – tištěné dílky mohou děti počítat, řadit podle barev, porovnávat velikosti, třídít, nebo je kombinovat s papírovými korunkami z PDF pro komplexní pohádkové aktivity.

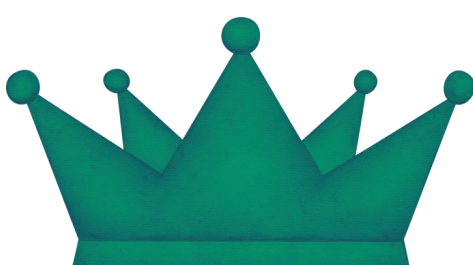

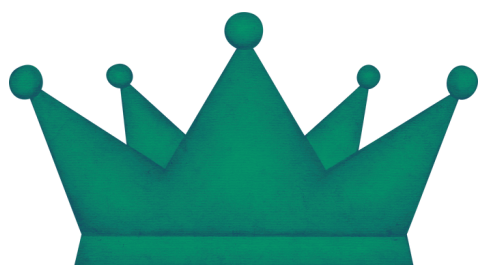

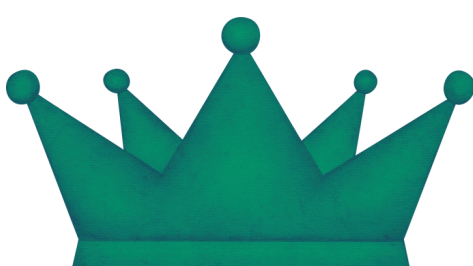

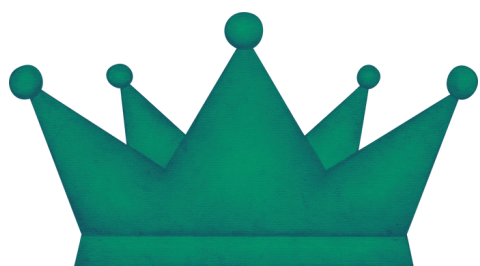

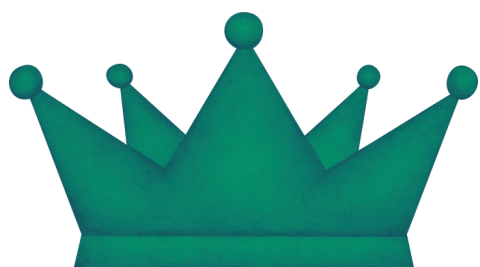

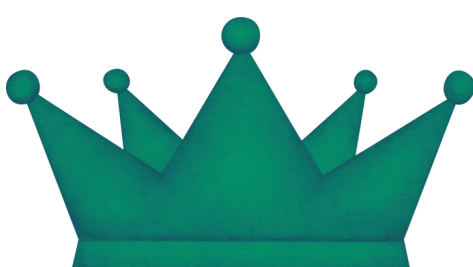

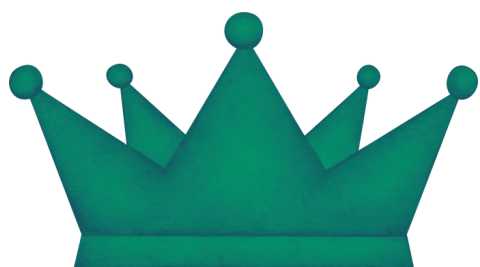

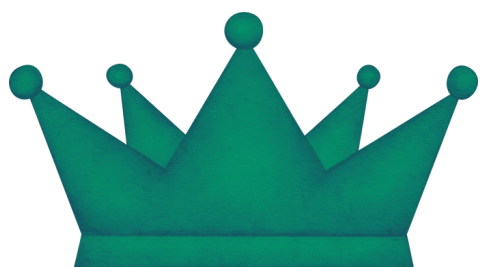

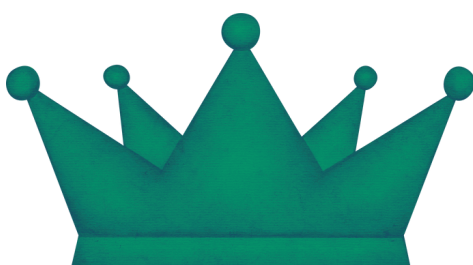

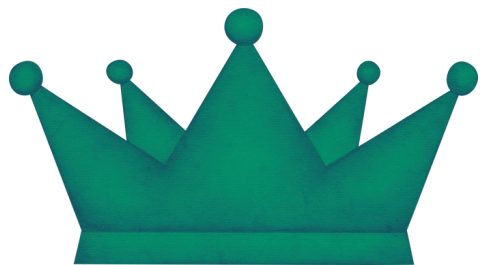

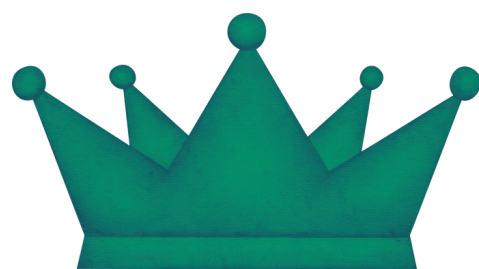

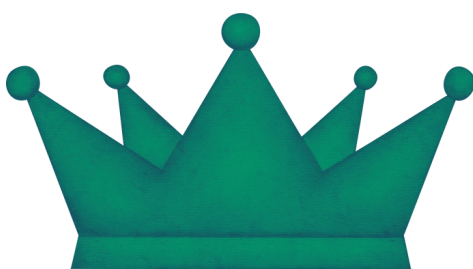

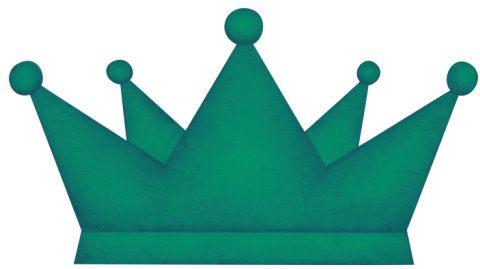

- **Tematická hra** – děti si vyberou barvu korunky a představí si, jakou mají královskou moc.
- **Výtvarná činnost** – vybarvování nebo dozdobování třpytkami, kamínky či nálepkami.
- **Matematické aktivity** – třídění podle barev, počítání korunek, porovnávání množství.
- **Dramatizace** – rozdělení rolí v pohádkovém příběhu podle barvy korunky.
- **Odměny** – papírová korunka jako diplom za splněný úkol nebo hru.
